REISSUANCE AND PURPOSE

This Directive reissues reference (a)

to implement the amendment noted in reference (b)

and, thereby, establishes policy, prescribes procedures, and assigns responsibilities for the National Defense Executive Reserve (NDER).

APPLICABILITY

This Directive applies to the Office of the Secretary of Defense (OSD), the Military Departments (including their Reserve components), and the Defense Agencies (hereafter collectively called "DoD Components"). The term "Military Services," as used herein, refers to the Army, Navy, Air Force, Marine Corps, and Coast Guard (by agreement with the Secretary of Transportation).

DEFINITIONS

Executive Position

.

A position that is needed to direct, or to assist in the direction of, major activities in such broad functional areas as procurement, transportation, manpower, communications, supply, and research and development.

NDER Program

.

A Federal program that provides a corps of highly qualified persons from industry, organized labor, professional groups, the academic community, and, to a limited extent, within Government to serve in executive positions as civilian employees during periods of national emergency.

DODD 1100.6, December 7, 1983

POLICY

It is DoD policy that, as part of the manpower mobilization base for national security, a unit or units of the NDER may be established and maintained in DoD Components.

PROCEDURES

The membership of individual NDER units shall be limited to the number of executive positions that cannot be filled appropriately during a national emergency by the regular employees of DoD Components.

Only persons qualified by suitable senior-level experience shall be selected as members of the NDER.

In the interest of efficiency, existing facilities, materials, and information channels shall be used as much as possible in operating the NDER program.

Persons assigned to the Ready Reserve of the Military Services may not be designated as members of the NDER. Members of the Standby Reserve and military retirees subject to recall may be included only in exceptional cases provided that it is understood that membership in the NDER will not preclude their being ordered to active duty in their military status.

NDER members are not considered officers or employees of the Federal Government during times in which they merely receive training for mobilization assignments under the NDER program. At such times, they may not act or advise on any matter pending before a DoD Component. During periods of national emergency, NDER members may be appointed as "special Government employees" as defined in 18 U.S.C. 202(a) (reference (c)).

An NDER member, although subject to conflict-of-interest regulations (see FPC 24, reference (d)), may continue to receive compensation from his or her private employer during the period he or she is performing services for the Government.

Ensure that, within funding limitations, the appropriate training is conducted for each NDER unit. This training will include general orientations and provision of up-to-date information on the actions planned in the event of mobilization and on the associated responsibilities of NDER members. NDER members shall participate in mobilization exercises to the maximum extent feasible. NDER training policies shall be based on guidance provided by the Federal Emergency Management Agency (FEMA) and the ASD(MRA&L).

and FPM Chapter 910, reference (e)).
